Inmate Death at USP Tucson

WASHINGTON, D.C.: On Friday, November 6, 2020, inmate Stanley Carr tested positive for COVID-19 at the United States Penitentiary (USP) Tucson, in Tucson, Arizona. Institution medical staff provided treatment and monitored his condition. On the same day, he was transported to a local hospital for further treatment and evaluation. On Tuesday, November 10, 2020, his condition worsened and he was placed on a ventilator. On Wednesday, December 2, 2020, Mr. Carr, who had long-term, pre-existing medical conditions which the CDC lists as risk factors for developing more severe COVID-19 disease, was pronounced deceased by hospital staff.

Mr. Carr was a 66-year-old male who was sentenced in the District of Arizona. He was sentenced to Life for 2nd Degree Murder. He had been in custody at the Federal Correctional Complex Tucson since January 17, 2014.

USP Tucson is a high security facility that currently houses 1,352 male offenders.

The Bureau of Prisons will continue to provide daily updates and information on actions related to COVID-19 at www.bop.gov/coronavirus/index.jsp.

Additional information about the Bureau of Prisons can be found at www.bop.gov.
